ABOUT

CHANGING METAL INDUSTRIES

The Egyptian company already extruded many of the famous systems in the Egyptian market.

The company follows international quality standards in line with the standard specifications set by the Egyptian General Organization for Standardization and Quality.

Accordingly, the company tends to extrude various other profiles in the architectural field, as well as standard profiles and industrial sectors for several fields. The Egyptian company is ready to start exporting the profiles to all markets Arabian, African and European countries.

Insightful Vision

To lead the industry aluminum and be the first and most reliable supplier for extruded Aluminum in the MENA region, by generating sustainable growth; creating long-lasting quality, satisfying all requirements with high efficiency, proudly engraving "Made in Egypt" on our high-quality products, and stamping our footprint around the world.

Road Map And Next Steps

Our goal is to become a high-value supplier for our partners by doubling our annual production and increasing our export rate to 72% of our annual extruded aluminum output. At ECEMI, we are actively expanding our production lines and installing a new, state-of-the-art production line. This expansion allows us to leverage modern techniques and consistently deliver high-quality, innovative products to meet the evolving needs of our global clients.

Exporting

ECEMI stands as one of the largest extrusion exporters in Egypt, recognized for its strong reputation within the Middle Eastern aluminum industry. We serve an extensive global customer base, including markets across Germany, France, Switzerland, North Africa and beyond.

EUROPE

AFRICA

NORTH AMERICA

MIDDLE EAST

Industries

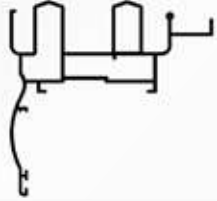

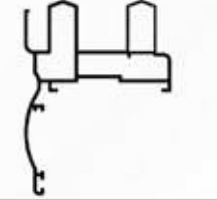

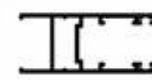

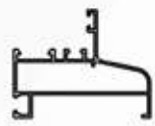

We're the supplier of a wide range of all aluminum shapes like tubes, corner and U shapes to different residential, administrative, commercial and more industries.
